

> The Journey Continues

DEAR FRIENDS OF MERIDIAN,

It's hard to believe more than 20 years have passed since I arrived at Meridian. In those days, it was Comprehensive Mental Health Services and we had roughly 250 employees serving patients in just three counties. As my tenure with Meridian comes to an end, I can't help but reflect on the journey we have been on together – a journey that begins with whole-person health.

Whole-person health created a culture in which we no longer saw the health of our patients as separate “parts” but rather as a combination of interdependent elements that work together in harmony. It's how we've created a true “medical home” where treatments, medications, doctors, and social workers are coordinated seamlessly to address the full spectrum of health.

Our passion for whole-person health is how we arrived to where we are today – serving over 40,000 patients across more than 40 counties throughout Indiana. In this year's annual report, you will read many examples of our commitment to whole-person health including how we've expanded rural healthcare access, opened new service lines, and developed new processes and fine-tuned our craft to better serve our patients.

This journey will continue long after I am gone and I could not be more confident in our new CEO, Seth Warren and his ability to lead the charge after me. Seth joins Meridian with more than 30 years of healthcare experience. Most recently, Seth served as President and CEO of Riverview Health, a health system in Noblesville, with two hospitals and more than 25 locations in Hamilton County overseeing services in imaging, fitness, primary medical care, and immediate and specialty-care facilities.

As you all know, Meridian has been an extraordinary cap to my life's work and it gives me great joy to know what we've done together will help, even in a small way, to launch this wonderful organization onto its next chapter. Like the cover of this report says, the journey continues. My heart is full. I wish you all great success.

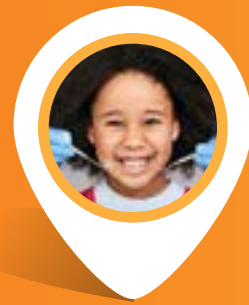

Hank A. Milius
President/CEO
Meridian Health Services

WELCOME

This past year we have continued our journey of creating healthier communities by expanding access to care, offering new service lines, addressing vital mental health concerns, and improving and providing better quality of care. Our dedicated Meridian team has worked together to provide our whole-person health services to rural and underserved communities while enhancing the patient experience. Meridian's impact continues to grow as we work to make our communities healthier through a focus on whole-person health.

Meridian's “Whole-Person” Healthcare provides integration of:

Expansion of Integrated Healthcare

Meridian's focus on whole-person health creates a medical home in which patients can receive the care they need all under one roof to obtain optimal health. Expanding access to care, adding service lines, and collaborating with other healthcare experts are all a part of Meridian's commitment to treating the whole-person.

67,500 PATIENT VISITS

WERE PROVIDED BY THE MERIDIAN SCHOOL-BASED HEALTH CLINIC AT MUNCIE COMMUNITY SCHOOLS IN FISCAL YEAR 2023.

Meridian's Expansions Into Rural Areas Take Center Stage

Meridian Health Services opened new offices in Marion and Portland in 2023. As we continue to expand we are reaching underserved communities that are in need of access to vital health services. Our overall objective is to keep the continuum of care intact – which includes integrating all services – primary medical care and behavioral health all under one roof creating a true medical home for our patients. Both locations offer primary medical care, dental, and behavioral health services allowing for doctors, dentists, and therapist to work together to meet the needs of each patient.

Meridian Patients Benefit From an In-House Pharmacy, Meridian Health Rx

Meridian Health Rx is Meridian's newest service line which aims to improve the patient experience, expand access to essential health services, and lower costs of medications. With locations now in Muncie, Richmond, and Anderson – and more coming in late 2023 and early 2024 – Meridian patients can enjoy improved continuity of care between their healthcare provider and pharmacy.

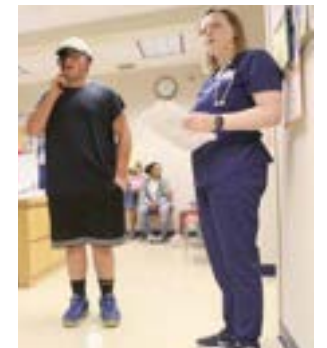

School-Based Health Clinics (SBHC) Grow

Meridian has a long history providing behavioral health services for years to now over 300 schools throughout Indiana. Recently, Meridian spearheaded a new concept of creating on-site school-based health clinics that offer both primary medical care and behavioral health to help broaden access to much needed services for students, faculty, and the community at large. Meridian initiated clinics with Muncie Community Schools in 2020, and has since opened school-based health clinics at Anderson Community Schools, Richmond Community Schools, and Union School Corporation. In 2023, services will be available at the Anderson Preparatory Academy, Jay County Schools, and Frankfort Community Schools.

346 SCHOOLS

PARTNER WITH MERIDIAN TO BRING SERVICES TO STUDENTS

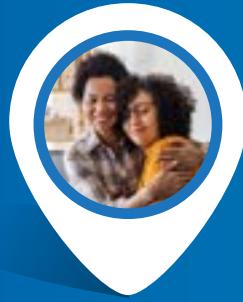

New and Expanded Collaborations with Lutheran Health Network

Growth also means collaboration, and in 2022 Meridian found paths in an expanded partnership with Lutheran Health Network in Fort Wayne. The new Fort Wayne location includes outpatient primary medical care with family practice physicians and pediatrics, as well as access to Meridian's hallmark behavioral care physicians, nurse practitioners, therapists, and addiction services. In the future, Meridian expects to expand services at this location to also provide dental, pharmacy services, and the maternal treatment program.

In March, Meridian and Lutheran Health Network of Bluffton expanded their partnership by providing women's health services at a new location. This is not the first collaboration with Lutheran Health in this area. In 2020, Meridian began overseeing two primary medical care practices providing pediatrics and internal medicine.

Rising to the Moment

Mental health has become an increasingly important topic of discussion as mental health concerns and suicide rates among people of all ages have increased in recent years. Meridian Health Services has risen to the moment by shedding light on the mental health crisis and resources available for help through community events.

56 PERCENT
OF INDIANA'S YOUTH THAT HAD A MAJOR DEPRESSIVE EPISODE DID NOT RECEIVE MENTAL HEALTH SERVICES IN THE PAST YEAR. MERIDIAN IS WORKING TO HELP STEM THE TIDE OF THIS STARTLING STATE STATISTIC.

MERIDIAN COMMUNITY HEALTH Speaker Series

Community Speaker Series

Kevin Hines and Chris Herren captivated the Speaker Series 2022 audiences with their personal testimonies of strength and resilience. Our Muncie event welcomed Kevin Hines who shared his personal account of jumping from the Golden Gate Bridge, surviving, and then dedicating his life to helping others who are struggling with mental health. Richmond and Lafayette events were held featuring Chris Herren, former NBA player, who shared his personal testimony of addiction and recovery.

Speaker Series, now in its sixth year, is part of a public awareness campaign, pairing high-profile individual speakers with a panel of Meridian experts, and local and statewide professionals who discuss what's being done to stem the tide. At Meridian, our integrated care system and its health clinics stretch across Indiana. We use that reach to promote community awareness and shine a light on relevant and timely topics.

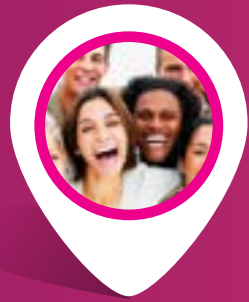

Rialzo XII Raises Funds for Meridian's School-Based Clinics

Rialzo XII returned once more in 2023, and hundreds of Meridian's friends, stakeholders, and advocates helped Meridian raise dollars for its school-based clinics, focusing on the nationwide mental health crisis among our youth. The school-based health clinics, a collaborative partnership with Meridian and community schools, expands Meridian's mission of "whole-person" health integrating physical, mental, and social well-being all housed in a health center within the school. In addition to services provided to students by the school nurse, this partnership provides primary medical care, behavioral, and social healthcare services to students and their families, as well as the general public.

"Wonderland: Nothing's Impossible," was the theme of Rialzo and is symbolic of the many changes and trials children face. Often, growing up feels like you are traveling down a rabbit hole that is dark and filled with mystery. For some, the rabbit hole may include issues at home, bullies, inadequate access to healthcare, and more that leave a child desperately seeking "Wonderland." The purpose with a party put school-based health clinics center stage to raise funds for the vital services it provides. Additionally, Meridian's President and CEO, Hank Milius, received the 2023 Spirit of Meridian Award, noting his legacy of whole-person health at Meridian.

Better Serving Our Community

Providing quality healthcare starts with continuously seeking new ways to improve patient outcomes, expand access to care, and collaborate with other healthcare organizations to create a true medical home for our patients.

Meridian Recognized by Division of Mental Health and Addictions

Meridian Health Services was recognized for its quality of behavioral health services and assessments by the state of Indiana's Division of Mental Health and Addictions (DMHA). The survey conducted in January 2023, assessed the full spectrum of Meridian's behavioral health processes including human resources, credentialing, training, quality, and medical records.

Meridian Health Services is one of 24 designated Community Mental Health Centers in the state of Indiana. The Division of Mental Health and Addictions sets care standards and provides funding support for Community Mental Health Centers. The positive result of this survey is a testament to the work Meridian is doing in the communities it serves. The report summarized treatment and documentation within Meridian's behavioral health and addictions/recovery programs, including the Maternal Treatment Program, to be "Excellent!"

203 BABIES BORN

BY MERIDIAN WOMEN'S HEALTH PROVIDERS. ZERO BABIES WERE BORN WITH NEONATAL ABSTINENCE SYNDROME BY MOTHERS IN THE MATERNAL TREATMENT PROGRAM.

11,025 PATIENTS

WERE SEEN BY MERIDIAN HEALTH PEDIATRICS PRIME-TIME IN MUNCIE FOR URGENT CARE NEEDS 7 DAYS PER WEEK INCLUDING NIGHTS AND WEEKENDS.

Community Collaborations

Meridian Health Services collaborated with a number of local universities and high schools to help provide opportunities for students interested in or studying various healthcare related fields. Collaborations help improve the outcomes of future medical professionals, in turn improving the health of our communities, and also help us provide new opportunities to our patients and practices.

Collaborations include:

- Indiana University Family Medicine residency students completed clinical rotations at MeridianMD – Convenience Care locations to provide acute urgent care needs.
- Muncie Area Career Center and Anderson Area Career Center students were provided dental internships to become Dental Assistants.
- Indiana University Dental School collaborated to host senior students in the Doctor of Dental Surgery program.

Community Health Quality Recognition Badges Awarded

Meridian Health Services received four quality recognition awards from the Health Resources and Services Administration (HRSA), an increase of two badges compared to the previous year. These prestigious badges recognize health centers that have made notable quality improvement achievements in the areas of access, health equity, health information technology, and COVID-19 public health emergency response. Meridian was recognized with the following badges: Access Enhancer, Advancing Health Information Technology for Quality, Health Disparities Reducer, and Patient Centered Medical Home.

Thank you to all of our generous supporters and donors for helping make Meridian's programs and services available to all who are in need.
